(54) Title: DISPLAY DEVICE

WO 2005/093693 A2

(54) Bezeichnung: ANZEIGEVORRICHTUNG

(57) Abstract: The invention relates to a display device (1; 101) comprising a plurality of picture elements (2; 102) for displaying still and moving images, alphanumeric characters or the like. According to the invention, said picture elements can be controlled, either individually or in groups, by means of an electronic control system, and the display device (1; 101) comprises a first flat substrate (3; 103). The invention is characterised in that the first flat substrate (3; 103) comprises fastening elements (6; 104) which project, at least in sections, from the first surface (4; 104) thereof, in order to detachably fix the display device (1; 101) in a carrier device (7), by the co-operation of the fastening elements (6; 104) of the first flat substrate (3; 103) with the carrier device (7).

(57) Zusammenfassung: Die Erfindung betrifft eine Anzeigevorrichtung (1; 101) mit einer Vielzahl von Bildpunkten (2; 102) zum Anzeigen von Stand- und Bewegtbildern, alphanumericen Zeichen oder vergleichbaren, wobei die Bildpunkte mittels einer Ansteuerelektronik einzeln oder gruppenweise steuerbar sind, und weist die Anzeigevorrichtung (1; 101) ein erstes flächiges Substrat (3; 103) auf, das durch Ansteckelemente (6; 104), welche in Abschnitten aus dem ersten Flächenoberfläche (4; 104) herausragen, an einer Trägervorrichtung (7) befestigt ist, wobei die Ansteckelemente (6; 104) des ersten flächigen Substrates (3; 103) mit der Trägervorrichtung (7) zusammenarbeiten.
